LIMAPS V1.0.0 Beta (Legal Interoperability Maturity Assessment for Public Services)

The LIMAPS V1.0.0 Beta is an online self-assessment tool that allows public service owners to measure the behavioural interoperability maturity of their Digital Public Services from the Legal Interoperability viewpoint.

LIMAPS is the legal interoperability **specialisation** of IMAPS.

For further information, please visit:

Features

✓ Helps public service owners **evaluate, improve** and consider key behavioural interoperability aspects of their public service, looking at the context of their **Service Delivery (D)** and **Service Consumption (C),** assessing:

- o the **legal behavioural interoperability specifications** of the data, information and knowledge delivered and consumed
- o the **legal behavioural interoperability capabilities** that enable the delivery and consumption of services, data, information and knowledge
- o the **legal behavioural interoperability manifestations** of the public service delivering and consuming services, data, information and knowledge

✓ Fully compliant with latest version of the **European Interoperability Framework** (EIF)

✓ A **compact** and highly **user-friendly** online self-assessment survey

Expected Benefits

- Provides **immediate insight** into a public service's **legal behavioural interoperability** and tailored **recommendations** on how to improve its legal interoperability **at any point in time** throughout the lifecycle of the public service

- Measures how well the **legal limitations** of data, information, knowledge share and reuse resolve the **legal incompatibilities** and facilitate the **interaction** of the digital public service with its end users and other client services

- Applicable to **any national digital public service** in the European Union across any domain from open data portals, to eVoting platforms, to public procurement services and more
